nikaandaya21@gmail.com • +(63) 9763498485 Olongapo City, Zambales, Philippines

Career Summary

A Full Stack Developer with expertise in building scalable, high-performance web applications using React, Angular, Node.js, TypeScript, Python, and AWS Serverless. Skilled in REAST API and WebSocket integrations, cloud infrastructure management (AWS Lambda, SES, CloudWatch), and database optimization (MongoDB, Redis, MySQL). Experiences in developing AI-driven applications with FastAPI and custom WordPress solutions, delivering projects that enhance performance, usability, and client satisfaction. Adept at collaborating in agile teams, managing CI/CD pipelines (Jenkins, GitHub Actions), and rapidly adopting new tools to solve complex problems.

Professional Experience

Freelance Full Stack Developer | Remote

November 2024 – Present 9 months

- Developed responsive frontends using React, TypeScript, Styled Components, Ant Design, improving usability and page load times.
- Integrated RESTful APIs and WebSocket-enabled backends, ensuring low-latency data updates and seamless user experience.
- Built scalable APIs with TypeScript, AWS Lambda, and MongoDB, optimizing query performance and reducing server costs.
- Delivered Python FastAPI microservices for Al-powered features, increasing automation efficiency.
- Customized WordPress themes and plugins for performance and SEO, improving client website speed by up to 30%.
- Provided post-deployment maintenance, bug fixes, and iterative enhancements, boosting client satisfaction scores.

Junior Developer | Serverless-Secure - Remote

June 2024 – October 2024

- Delivered full-stack features using Node.js, Angular, and TypeScript, ensuring cross-browser compatibility.
- Managed AWS infrastructure (Lambda, CloudWatch, and SES) for serverless applications.
- Replaced Mailgun with AWS SES for transactional and template-driven emails, reducing costs by 15%.
- Led 2-month project management phase, coordinated sprints, tracked progress in Jira, and ensured on-time delivery.
- Enhanced CI/CD pipelines with **Jenkins**, reducing deployment time by 20%.
- Collaborated with UI/UX designers in Figma to improve accessibility and overall user engagement.

Junior Developer Intern | Serverless-Secure - Remote

March 2024 - May 2024

3 months

4 months

- Built serverless full-stack apps with Node.js, Angular, TypeScript and MongoDB.
- Integrated WebSocket messaging and third-party email APIs for real-time communication.
- Optimized database queries and implemented Redis caching, improving response times.
- Created technical documentation and architecture diagrams (draw.io) and wrote unit tests with Jest to ensure code reliability.

Projects

JobFlow | Al-Powered U.S. Job Board

June 2025 - Present | View Site

- Built a custom WordPress job board with plugin customization and schema optimization.
- Integrated FastAPI based AI to auto-generate job listings.

SHE Time Tracker | Full-Stack Time Tracking Application

May 2025 - June 2025 | Live Demo

- Built a time tracking and PTO system using React, TypeScript, and Tailwind CSS, deployed via Vercel.
- Developed backend with Express.js, MongoDB, and AWS Serverless.

ReactJS Portfolio | AWS Amplify

Jan 2024 - Present | Visit

- Created a personal portfolio to showcase full-stack projects and skills.
- Deployed using Vercel and AWS Serverless. Built with React, TypeScript, and Tailwind CSS.

Starconcord Corporate Website | WordPress

Aug 2024 | View Site

- Enhanced page speed by 30% via asset optimization.
- Improved SEO and achieved 20% boost in organic traffic.

BidsNBuys | Angular Real-Time Bidding Platform

March 2024 - October 2024 | Visit

- Built a real-time bidding app with Angular 18, Node.js, and AWS Lambda.
 - Integrated WebSocket updates, serverless APIs, and MongoDB backend.
- Optimized UX, CI/CD, and performance using Redis caching and PrimeNG.

Academic

UniverCity Belt Residences | Rental Management System

Capstone Project

- Built a rental management system with HTML, JavaScript, PHP, and MySQL.
- Integrated biometric and mobile-friendly features; deployed via Hostinger.
- Led development, documentation, and testing phases for system reliability.

Education

Bachelor of Science in Information Technology

Mondriaan Aura College, Subic Bay Freeport Zone, Zambales

Graduation Year: 2023

Tech Stack

Frontend: React, Angular, TypeScript, JavaScript, Styled Components, Ant Design, Bootstrap, Tailwind

Backend: Node.js, Python, Express.js, MongoDB, Redis, PHP

DevOps / Cloud: AWS (Lambda, CloudWatch, SES, EC2, S3, Amplify, Serverless), Jenkins

Tools: Visual Studio Code, Postman, Figma, Jira, Jest, draw.io, Git
