Career Summary

Full Stack Software Engineer with experience designing, developing, and maintaining scalable web applications using TypeScript, JavaScript, Python, React, Next.js, Angular, Node.js, ASP.NET Web Forms, and WordPress. Experienced in building responsive user interfaces, developing serverless applications with AWS Lambda, managing cloud infrastructure on Amazon EC2 and RDS, and integrating REST APIs and WebSockets. Proficient in frontend development, backend services, CMS customization, AI-powered applications with FastAPI, and CI/CD pipelines using Jenkins, GitHub Actions, and Docker. Strong collaborator in Agile teams with a focus on performance, maintainability, and delivering high-quality software.

Professional Experience

Associate Software Engineer | Fulcrum Solutions

January 2026 – Present (8 months)

- Developed responsive, reusable frontend components using **Next.js**, **TypeScript**, **Tailwind CSS**, and **React**, translating UI/UX designs into scalable, maintainable interfaces.
- Optimized frontend performance and page load speed while preserving design quality and user experience across responsive layouts.
- Developed and maintained **AWS Lambda** functions and **CMS** integrations to support dynamic content delivery and backend business logic.
- Maintained and enhanced **WordPress** applications hosted on **Amazon EC2**, performing deployments via SSH, developing custom **PHP** functionality, and managing MySQL databases on Amazon RDS to support content management and marketing funnels.
- Maintained and enhanced legacy **ASP.NET Web Forms** applications connected to **Amazon RDS** by implementing new features, resolving defects, and improving application stability.
- Collaborated with cross-functional teams including designers, QA engineers, and stakeholders to deliver production-ready features in an Agile development environment.

Freelance Full Stack Developer | Remote

November 2024 – January 2026 (1 year & 2 months)

- Developed responsive frontends using **React**, **Next.js**, **TypeScript**, **Styled Components**, **Ant Design**, improving usability and page load times.
- Integrated **RESTful APIs** and **WebSockets**, ensuring low-latency data updates and seamless user experience.
- Built scalable APIs with **JavaScript**, **TypeScript**, **Node.js**, **AWS Lambda**, **MongoDB**, and **MySQL** optimizing query performance and reducing server costs.
- Delivered **FastAPI** microservices for AI-powered features, increasing automation efficiency.
- Customized **WordPress** themes and plugins for performance and SEO, improving client website speed by up to 30%.
- Provided **post-deployment** maintenance, bug fixes, and iterative enhancements, boosting client satisfaction scores.

Junior Developer | Serverless-Secure – Remote

June 2024 – October 2024 (4 months)

- Delivered full-stack features using **Node**, **Angular**, and **TypeScript**, ensuring cross-browser compatibility.
- Managed **AWS infrastructure** (Lambda, CloudWatch, and X-Ray) for serverless applications.
- Replaced Mailgun with **AWS SES** for transactional and template-driven emails, reducing costs by 15%.
- Led 2-month **project management** phase, coordinated sprints, tracked progress in Jira, and ensured on-time delivery.
- Enhanced CI/CD pipelines with **Jenkins**, reducing deployment time by 20%.
- Collaborated with UI/UX designers in **Figma** to improve accessibility and overall user engagement.

Junior Developer Intern | Serverless-Secure – Remote

March 2024 – May 2024 (3 months)

- Built **serverless** full-stack apps with **Node**, **Angular**, **TypeScript** and **MongoDB**.
- Integrated **WebSocket** messaging and third-party email APIs for real-time communication.
- Optimized database queries and implemented **Redis caching**, improving response times.
- Created technical documentation and architecture diagrams (**draw.io**) and wrote unit tests with **Jest** to ensure code reliability.

Projects

JobFlow | AI-Powered U.S. Job Board

June 2025 – July 2025 | <https://www.jobflow24.com/>

- Built a custom **WordPress** job board with **plugin customization**, **child-theme** and schema optimization.
- Integrated **FastAPI** based AI to auto-generate job listings.

SHE Time Tracker | Full-Stack Time Tracking Application

May 2025 – June 2025 | <https://time-tracker-delta-ashen.vercel.app/>

- Built a time tracking and PTO system using **React**, **TypeScript**, and **Tailwind CSS**, deployed via **Vercel**.
- Developed backend with Express.js, MongoDB, and AWS Serverless.

Portfolio | React

Jan 2024 – Present | <https://grace-dev.vercel.app/>

- Created a personal portfolio to showcase full-stack projects and skills.
- Deployed using Vercel and AWS Serverless. Built with React, TypeScript, and Tailwind CSS.

Starconcord Corporate Website | WordPress

Aug 2024 | <https://www.starconcord.com.sg/>

- Enhanced page speed by 30% via asset optimization.
- Improved SEO and achieved 20% boost in organic traffic.

BidsNBuys | Angular Real-Time Bidding Platform

March 2024 - October 2024 | <https://bidsnbuys.com/>

- Built a real-time bidding app with Angular 18, Node.js, and AWS Lambda.
- Integrated WebSocket updates, serverless APIs, and MongoDB backend.
- Optimized UX, CI/CD, and performance using Redis caching and PrimeNG.

Education

Bachelor of Science in Information Technology

Mondriaan Aura College, Subic Bay Freeport Zone, Zambales

Graduation Year: 2023

Technical Skills

Frontend: React, Next.js, Angular, TypeScript, JavaScript, Tailwind CSS, Styled Components, Ant Design, Bootstrap

Backend: Node.js, Express.js, Python (FastAPI), PHP, ASP.NET Web Forms, MongoDB, MySQL, Redis AWS (Lambda, API Gateway, EC2, RDS, S3, SES, CloudWatch, Amplify, Serverless Framework), Jenkins, GitHub Actions, Docker
